SaraWest

Factory-direct care products
for working professionals.

MADE IN PAMPA, TEXAS

All products available for custom-order and private-label manufacturing.

199 PRODUCTS · 6 DIVISIONS

OUR STORY

Made in Pampa, Texas

SaraWest is a fourth-generation manufacturing operation rooted in the Texas Panhandle. We build care products the way our grandparents did — small batches, honest formulas, and quality you can put your name on.

Every bottle, every can, every label leaves our facility ready to wear your brand or ours. Factory-direct, no middlemen.

OUR STORY

Built for Working People

We make products for ranchers, leatherworkers, boot shops, equestrian pros, hospitality groups, and cleaning crews — the people who actually use what they buy.

That focus shapes every formula: it must work the first time, every time, in real conditions.

OUR STORY

Six Divisions. One Standard.

Horse Care. Leathercraft. Shoe Care. Leather Care. Solar Care. Commercial Cleaning.

Six divisions, hundreds of formulas — all manufactured under one roof in Pampa. One quality standard. One supply chain. One team accountable to you.

OUR STORY

Built to White-Label

Every product in this catalogue is available as private label. Pick the formula, pick the size, pick the look — we handle the rest.

Minimums start low. Lead times are honest. Your brand goes on, and the quality stays the same.

SaraWest AtomShield Leather Balm

Concept image. Product can be customized to your specifications.

"Your tack takes a beating every ride. This is how you make it last."

Blends natural oils and atom wax to condition, soften and protect finished leather tack. Absorbs quickly without greasy residue. Creates a supple, water-resistant barrier that extends leather life.

WHY IT WINS

- ✓ Natural oil and atom wax blend for deep conditioning
- ✓ Absorbs quickly — no greasy film or dust-attracting residue
- ✓ Creates a water-resistant barrier that extends leather life
- ✓ Keeps leather supple and flexible through hard use

BEST FOR

- Tack rooms
- Saddle care
- Bridle and rein conditioning
- Show prep
- Working ranch tack
- Leather restoration

HOW TO USE

Apply a thin layer to clean leather using a soft cloth or applicator pad. Work into the leather using circular motions, paying attention to areas of heavy wear and flex. Allow to absorb for 10-15 minutes, then buff with a clean cloth. For best results, clean leather first with SaraWest Tack Bar Saddle Cleaner or Tack Wash Liquid Cleaner before conditioning.

EXPECTED RESULTS

- ✓ Softer, more supple leat...

SaraWest EcoWash Horse Shampoo

Concept image. Product can be customized to your specifications.

"A clean horse, a clear conscience — no harsh chemicals going down the drain."

Gentle, environmentally friendly horse wash that lifts dirt and sweat from coats, manes and tails. Formulated with plant-derived surfactants. Biodegradable and safe for waterways.

WHY IT WINS

- ✓ Plant-derived surfactants — genuinely eco-friendly, not just labeled that way
- ✓ Biodegradable formula safe for waterways
- ✓ Lifts dirt and sweat effectively from coats, manes, and tails
- ✓ Rinses clean without residue or film

BEST FOR

- Eco-conscious horse owners
- Facilities near waterways
- Boarding barns with environmental standards
- Quick wash-downs
- Summer grooming

HOW TO USE

Wet the horse thoroughly. Apply EcoWash Horse Shampoo to the coat directly or via sponge. Lather and work through the coat, mane, and tail. Rinse thoroughly. For daily quick-rinse use after rides. For a deeper clean with conditioning, use ProCoat Equine Wash instead.

EXPECTED RESULTS

SaraWest Heritage Neatsfoot Blend

Concept image. Product can be customized to your specifications.

"When leather gets stiff and dried out, this is the deep conditioning it needs to come back to life."

Time-tested blend of neatsfoot oil and petroleum oils that deeply conditions and preserves leather. Softens stiff or dried-out tack and restores flexibility. Available in multiple sizes for any job.

WHY IT WINS

- ✓ Deep penetrating formula that restores stiff, dried-out leather
- ✓ Time-tested neatsfoot oil blend — proven for generations
- ✓ Available in 4 oz, 8 oz, 32 oz, and 1 gallon sizes
- ✓ Softens and preserves leather fibers from the inside out

BEST FOR

- Leather restoration
- Dried-out tack revival
- Ranch supply rooms
- Working saddle maintenance
- Leather shops
- Estate sale finds

HOW TO USE

Apply a moderate amount to clean leather using a cloth or sponge. Work into the leather with circular motions, giving extra attention to stiff or dried areas. Allow to absorb for several hours or overnight. Wipe off any excess with a clean cloth. For severely dried leather, a second application after 24 hours may help. Follow with AtomShield Leather Balm for surface protection.

SaraWest Hoof Conditioning Lotion

Concept image. Product can be customized to your specifications.

"Healthy hooves start from the inside out — and this is the daily care that makes the difference."

Lightweight lotion that penetrates the hoof wall to maintain flexibility and prevent brittleness. Absorbs quickly without greasy residue. Daily use keeps hooves healthy and resilient.

WHY IT WINS

- ✓ Penetrates the hoof wall — doesn't just sit on the surface
- ✓ Absorbs quickly with zero greasy residue
- ✓ Maintains flexibility and prevents brittleness
- ✓ Fast daily application — less than a minute per hoof

BEST FOR

- Daily hoof care
- Horse owners
- Farriers
- Dry climate regions
- Show horses
- Senior horses with brittle hooves

HOW TO USE

Apply a small amount to the hoof wall and coronary band daily. Rub in with your fingers or a cloth. No need to pick the hoof first for daily conditioning — just apply to the external wall. For best results, use alongside SaraWest IronHoof Protective Coat for combined internal conditioning and external protection.

EXPECTED RESULTS

SaraWest IronHoof Protective Coat

Concept image. Product can be customized to your specifications.

"Cracked hooves cost you money, time, and soundness. Stop the damage before it starts."

Protective coating that seals the hoof wall against moisture loss and environmental damage. Helps prevent cracking, chipping and splitting. Brush-on formula with added UV protection.

WHY IT WINS

- ✓ Seals hoof wall against moisture loss and environmental damage
- ✓ Built-in UV protection prevents sun-bleaching and brittleness
- ✓ Brush-on formula for controlled, even application
- ✓ Prevents cracking, chipping, and splitting

BEST FOR

- Horse owners
- Farriers
- Show prep
- Trail horses
- Working ranch horses
- Dry climate regions

HOW TO USE

Clean and dry the hoof thoroughly. Apply an even coat with the built-in brush from the coronary band down to the ground surface. Allow to dry before turnout. Reapply every 5-7 days or as needed based on conditions. For best results, pair with SaraWest Hoof Conditioning Lotion for internal and external hoof care.

SaraWest ProCoat Equine Wash

Concept image. Product can be customized to your specifications.

"A clean horse isn't just about looks — it's about health, comfort, and the pride you take in your animal."

Two-in-one shampoo and conditioner that gently cleanses while depositing silk proteins to leave coats soft, shiny and manageable. pH-balanced for equine skin. Lathers richly and rinses clean without residue.

WHY IT WINS

- ✓ True 2-in-1 — cleans and conditions without a separate step
- ✓ Silk protein formula leaves coats soft and naturally shiny
- ✓ pH-balanced for equine skin — no drying or irritation
- ✓ Rich lather that rinses completely clean

BEST FOR

- Horse owners
- Show prep
- Weekly grooming
- Working ranches
- Boarding facilities
- Equine therapy programs

HOW TO USE

Wet the horse thoroughly with clean water. Apply shampoo directly to the coat or onto a sponge. Work into a lather, paying attention to the barrel, legs, and underbelly. Rinse thoroughly until water runs clear. For heavily soiled coats, a second application may help. Follow with SaraWest SilkMane Detangler on mane and tail for best results.

SaraWest QuadShield Leather Conditioner

Concept image. Product can be customized to your specifications.

"Clean, condition, protect, and preserve — in one bottle, in one step."

Cleans, conditions, protects and preserves leather in one step. All-in-one formula with gentle cleansers, natural oils and waxes. The easiest way to maintain tack between deep cleanings.

WHY IT WINS

- ✓ Four functions in one bottle — cleans, conditions, protects, preserves
- ✓ Saves time and money versus buying separate products
- ✓ Natural oils and waxes for genuine leather care
- ✓ 16 oz bottle for regular tack room use

BEST FOR

- Quick tack maintenance
- Between-ride touch-ups
- Tack rooms
- Working ranch hands
- Time-pressed horse owners
- Trail riders

HOW TO USE

Apply a small amount to a soft cloth. Wipe over the leather surface, working into areas of soiling. No need to rinse. Buff lightly with a clean cloth for a natural sheen. For heavy soiling, clean with Saddle Soap first, then follow with QuadShield for conditioning and protection.

EXPECTED RESULTS

SaraWest RanchGuard Fly Defense

Concept image. Product can be customized to your specifications.

"Your horse shouldn't have to fight flies all day — and neither should you."

Potent insect repellent that keeps flies, mosquitoes and ticks off horses and livestock. Ready-to-use 32 oz spray with long-lasting protection. Our proprietary blend of pyrethrins and synergists provides hours of coverage even in the heat of summer.

WHY IT WINS

- ✓ Hours of protection from flies, mosquitoes, and ticks — not minutes
- ✓ Proprietary pyrethrin-synergist blend for knockdown and repellency
- ✓ Ready-to-use 32 oz spray — no mixing, no mess
- ✓ Built for Texas heat and heavy fly pressure

BEST FOR

- Horse owners
- Working ranches
- Livestock operations
- Trail riding
- Show prep
- Barn and stable use

HOW TO USE

Shake well before use. Hold bottle 12-18 inches from the animal and spray evenly across the coat, legs, belly, and neck. Avoid eyes, nostrils, and open wounds. Reapply as needed based on fly pressure and weather conditions. For best results, apply after grooming to a clean, dry coat. Can be used on horses, ponies, and livestock.

SaraWest RanchHand Skin Balm

Concept image. Product can be customized to your specifications.

"When the wind cracks skin and the cold won't quit, this is what keeps working."

Rich, lanolin-based balm that soothes and protects sensitive udder skin. Also works on chapped hands, elbows and heels. Thick formula creates a protective barrier against wind and cold.

WHY IT WINS

- ✓ Thick lanolin formula that stays put through wind and cold
- ✓ Creates a real protective barrier — not just surface moisture
- ✓ Works on udders, hands, elbows, and heels
- ✓ Soothes existing cracks while preventing new ones

BEST FOR

- Dairy operators
- Horse owners
- Ranch hands
- Winter skin protection
- Livestock care
- Anyone with cracked hands

HOW TO USE

Apply a thin layer to clean, dry skin. For udders, apply after milking or cleaning. For hands and skin, apply before heading outside and reapply as needed. A little goes a long way — the thick formula spreads easily and doesn't need heavy application.

EXPECTED RESULTS

SaraWest Rawhide Cream Conditioner

Concept image. Product can be customized to your specifications.

"Rawhide needs its own conditioner — and this is the one that actually understands it."

Rich cream conditioner formulated specifically for rawhide equipment. Restores moisture, prevents cracking and maintains the natural look and feel of rawhide lariats, bosals and more.

WHY IT WINS

- ✓ Formulated specifically for rawhide — not repurposed leather conditioner
- ✓ Restores moisture and prevents cracking
- ✓ Maintains the natural look and feel of rawhide
- ✓ Rich cream formula that absorbs properly into rawhide fibers

BEST FOR

- Rawhide lariats
- Bosals and hackamores
- Rawhide hobbles
- Show equipment
- Working cowboys
- Vaquero-tradition riders

HOW TO USE

Apply a thin layer to clean rawhide with your fingers or a soft cloth. Work the cream into the fibers gently. Allow to absorb for 30 minutes to an hour. Wipe off any excess. Apply every few weeks or when rawhide feels dry or stiff. Avoid over-conditioning — rawhide should maintain some firmness.

SaraWest SilkMane Detangler

Concept image. Product can be customized to your specifications.

"Stop fighting your horse's mane and tail — and start making them look the way they should."

Smooths out knots and tangles in manes and tails while adding a brilliant glossy finish. Lightweight formula reduces breakage and repels dirt. Silicone-free so it won't build up over time.

WHY IT WINS

- ✓ Instantly smooths knots without pulling or breaking hair
- ✓ Silicone-free — no buildup, even with daily use
- ✓ Adds natural shine without a greasy or heavy finish
- ✓ Repels dirt and dust after application

BEST FOR

- Daily grooming
- Show prep
- Mane and tail care
- Horse owners
- Boarding barns
- Equine rescue programs

HOW TO USE

Spray generously onto dry or damp mane and tail. Allow 30 seconds to penetrate, then brush or comb through starting at the ends and working up. Can be used daily without buildup. For body shine, mist lightly over the coat after grooming and smooth with a soft brush.

EXPECTED RESULTS

SaraWest Tack Bar Saddle Cleaner

Concept image. Product can be customized to your specifications.

"The fastest way to clean a saddle — and the cheapest product in your tack room that actually matters."

Classic bar saddle soap that cleans and conditions leather in one step. Rich lather lifts dirt while depositing glycerine to keep leather supple. Compact and long-lasting.

WHY IT WINS

- ✓ Cleans and conditions in one step with glycerine
- ✓ Rich lather lifts dirt fast — minimal scrubbing needed
- ✓ Compact 3.5 oz bar that lasts for dozens of cleanings
- ✓ Under \$8 — the most affordable tack room essential

BEST FOR

Quick tack cleaning

Tack rooms

Show trailers

Weekly saddle maintenance

Budget-conscious horse owners

HOW TO USE

Dampen a sponge or cloth. Rub the soap bar to create a lather. Apply to leather in circular motions, lifting dirt as you go. Wipe clean with a damp cloth and allow to dry. Follow with SaraWest AtomShield Leather Balm for deep conditioning after cleaning.

SaraWest Tack Wash Liquid Cleaner

Concept image. Product can be customized to your specifications.

"Gets into every stitch, seam, and crevice where bar soap can't reach."

Convenient liquid formula that cleans leather while depositing glycerine to keep it supple. Works into seams and hard-to-reach areas easily. pH-balanced to protect leather fibers.

WHY IT WINS

- ✓ Liquid formula reaches seams, stitching, and tight spots
- ✓ pH-balanced to protect leather fibers during cleaning
- ✓ Glycerine deposits keep leather supple as you clean
- ✓ 32 oz bottle sized for serious tack room use

BEST FOR

- Deep tack cleaning
- Multiple-horse operations
- Tack rooms
- Show prep
- Leather restoration
- Professional tack cleaning

HOW TO USE

Apply a small amount to a damp sponge or cloth. Work into the leather, focusing on seams, stitching, and areas of heavy soiling. Use a soft brush for deeply grooved tooling. Wipe clean with a damp cloth. Follow with SaraWest AtomShield Leather Balm or Heritage Neatsfoot Blend for conditioning.

SaraWest Blue Frost Whitening Shampoo

Concept image. Product can be customized to your specifications.

"White coats yellow. This fixes that — without bleach, without damage."

Brightens white and light-colored coats with optical brighteners that counteract yellowing. Two-in-one shampoo and conditioner leaves coats sparkling and soft.

WHY IT WINS

- ✓ Manufactured in our Pampa, Texas facility
- ✓ Available in custom sizes and packaging
- ✓ Private-label ready — your brand, our quality
- ✓ Low minimums for first runs

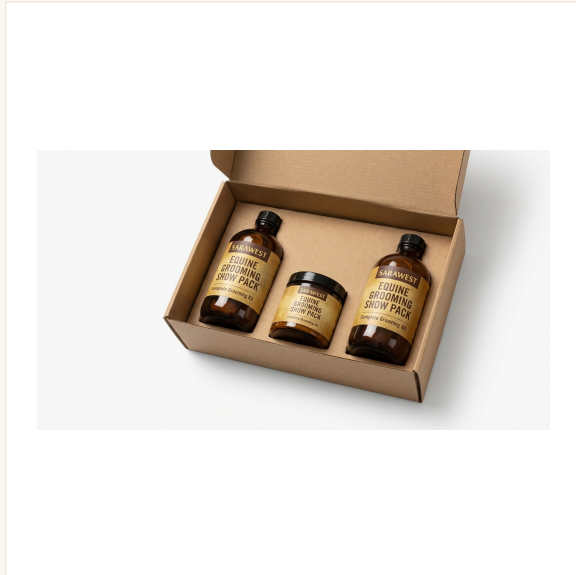

BEST FOR

- Gray and white horses
- Palomino owners
- Paint horse grooming
- Show prep
- Light-colored coat care

SaraWest Basic Leather Dye

Concept image. Product can be customized to your specifications.

"Color that goes deep, stays true, and doesn't fade when your project hits real life."

Classic alcohol-based leather dye that penetrates deep into vegetable-tanned leather for rich, permanent color. Dries quickly with excellent coverage. Available in 32 colors and 3 sizes for projects of any scale.

WHY IT WINS

- ✓ Deep-penetrating alcohol-based formula for permanent color
- ✓ 32 colors to match any project vision
- ✓ Fast drying with excellent coverage
- ✓ Available in 4 oz, 32 oz, and 1 gallon

BEST FOR

Leathercrafters

SaraWest EdgeSeal Finish

Concept image. Product can be customized to your specifications.

"Raw edges are where amateur work shows. Finish them right."

Classic edge dressing that adds color and a polished shine to raw leather edges. High-gloss acrylic coating stands up to flexing and abrasion. Self-leveling formula for smooth, professional results.

WHY IT WINS

- ✓ Self-leveling formula for smooth, even edges
- ✓ High-gloss acrylic that resists flexing and abrasion
- ✓ 16 colors including clear
- ✓ Available in 4 oz, 32 oz, and 1 gallon

BEST FOR

SaraWest FlexCoat Finish

Concept image. Product can be customized to your specifications.

"Your dye work deserves protection that flexes, breathes, and lasts."

Clear, flexible acrylic topcoat that protects dyed leather from water, wear and UV fading. Maintains color vibrancy while allowing the leather to breathe and flex without cracking.

WHY IT WINS

- ✓ Clear acrylic that won't yellow over time
- ✓ Flexible coating moves with leather — no cracking
- ✓ Protects against water, wear, and UV fading
- ✓ Maintains color vibrancy underneath

BEST FOR

- Finishing dyed leather
- Sealing antique work
- Belt and wallet finishing
- Saddle finishing
- Production shops
- Any dyed leathercraft project

HOW TO USE

Apply over fully dry dye or antique finish. Use a sponge, cloth, or spray gun for even coverage. Apply thin coats, allowing each to dry before adding the next. 2-3 coats recommended. For a matte look, apply one thin coat. For higher gloss, add additional coats with light buffing between.

SaraWest Heritage Antique

Concept image. Product can be customized to your specifications.

"Make tooled leather look like it's been carried through a hundred years of hard use — in minutes."

Creamy paste that creates rich patina on tooled and carved leather. Settles into cuts, stamps and crevices, highlighting detail with warmth and depth. Wipes clean from raised surfaces for beautiful contrast.

WHY IT WINS

- ✓ Creamy paste formula for controlled application
- ✓ Settles into tooling details for rich contrast
- ✓ Wipes clean from raised surfaces easily
- ✓ 10 colors for matching any project

BEST FOR

- Tooled leather projects
- Carved leather
- Saddle making
- Western leather goods
- Craft shows
- Leather hobbyists

HOW TO USE

Apply dye base coat first and allow to dry. Apply Heritage Antique over the surface with a sponge or cloth, working it into all tooled areas. Allow to set briefly, then wipe from raised surfaces with a clean cloth. Seal with FlexCoat Finish for permanence.

SaraWest Premium Oil Dye

Concept image. Product can be customized to your specifications.

"For the crafter who won't settle for surface-level color."

Professional-grade oil-based dye engineered for deeper penetration and superior color permanence. Produces richer tones than alcohol dyes with longer working time for even coverage. The choice of master leathercrafters.

WHY IT WINS

- ✓ Oil-based formula for deeper penetration and richer color
- ✓ Longer working time means more even coverage
- ✓ 21 curated professional colors
- ✓ Superior color permanence compared to alcohol dyes

BEST FOR

- Master leathercrafters
- Saddle makers
- Custom leather goods
- High-end projects
- Production shops
- Professional dyers

HOW TO USE

Prep leather surface by removing oils and finishes. Apply with wool dauber or sponge in smooth, even strokes. Oil dyes take longer to dry than alcohol dyes — allow adequate drying time between coats and before handling. Seal with FlexCoat Finish for maximum protection.

EXPECTED RESULTS

- ✓ Deeper, richer color than alcohol dyes
- ✓ More even coverage with longer working time
- ✓ Color permanence that lasts for years
- ✓ Professional results on high-end projects

SaraWest Sole Edge & Heel Polish

Concept image. Product can be customized to your specifications.

"The final shine that tells people this shoe was done right."

Wax-based polish that gives heel and sole edges a rich, glossy shine. Fills in minor scratches and scuffs while providing a smooth, buffable finish.

WHY IT WINS

- ✓ Wax-based formula for rich, buffable shine
- ✓ Fills minor scratches and scuffs
- ✓ Black, Brown, and Neutral options
- ✓ Available in 4 oz and 32 oz

BEST FOR

- Cobblers
- Shoe shine professionals
- Boot finishing
- Shoe repair shops
- Leather goods finishing

HOW TO USE

Apply over dry edge dressing or directly to finished sole edges. Use a dauber or cloth to apply a thin layer. Allow to dry briefly, then buff with a horsehair brush or soft cloth for maximum shine.

Contract cleaners

Cost-conscious operations

HOW TO USE

Use with compatible concentrate dosing systems. Install the concentrate container into the dispenser unit and connect to the appropriate dilution line. The system will automatically dilute to the correct ratio. For manual dilution, measure the concentrate according to the label instructions and add to the appropriate volume of water. Mix thoroughly before use. Always use measuring equipment for consistent results.

Gold Label Washaid

Concept image. Product can be customized to your specifications.

"Gold Label Washaid is a highly alkaline auto-dishwashing detergent specially formulated to provide excellent soil removal"

Gold Label Washaid is a highly alkaline auto-dishwashing detergent specially formulated to provide excellent soil removal from crockery in both soft and hard water conditions. Intensive cleaning action rapidly removes fats, starch and proteins. Highly concentrated formula gives greater economy in use. Special ingredients prevent scaling of the dish washing machine – even in hard water conditions. Wherever tannin stains are a problem and ordinary products do not work, Gold Label Washaid may be used to rapidly remove built up stains without the need for extra products.

WHY IT WINS

- ✓ Purpose-formulated for commercial dishwashing and kitchen hygiene — not a repurposed
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ Engineered for automatic dosing systems

BEST FOR

- Commercial kitchens
- Restaurants & cafes
- Hotels & hospitality
- Catering operations
- Healthcare kitchens
- School canteens

HOW TO USE

Use with automatic dosing equipment calibrated to your dishwasher specifications. Ensure the correct product is connected to the appropriate dispenser line (detergent, rinse aid, or destainer as applicable). For manual dosing, follow the concentration guidelines on the product label. Maintain machine temperature and water hardness settings as recommended by the dishwasher manufacturer for optimal results.

Pot Pourri Air Freshener

Concept image. Product can be customized to your specifications.

"High quality pot pourri perfume ensures that it is effective, long lasting and economical."

High quality pot pourri perfume ensures that it is effective, long lasting and economical. A quick spray rapidly dispels odours leaving a pleasant long lasting fragrance that enhances any work or leisure environment. Atomises instantly and completely so does not 'rain' and will not stain fabrics when used in accordance with the directions.

WHY IT WINS

- ✓ Purpose-formulated for environmental fragrance and odor control — not a repurposed consumer
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ True odor neutralization, not just masking

BEST FOR

Office buildings

Hotels & hospitality

Healthcare facilities

Retail stores

Washrooms

Reception areas

HOW TO USE

For trigger spray application, spray 2-3 bursts into the center of the room, directing upward. Avoid spraying directly onto fabrics, polished surfaces, or electrical equipment. For use in automatic dispensing systems, install the refill according to the dispenser manufacturer's instructions. Adjust the interval timer based on room size and foot traffic.

EXPECTED RESULTS

Tannin Remover

Concept image. Product can be customized to your specifications.

"A multi - component powder designed for the removal of tea and coffee stains."

A multi - component powder designed for the removal of tea and coffee stains. For use on china, plastic, melamine, stainless steel, chrome and most metals (except aluminium).

WHY IT WINS

- ✓ Purpose-formulated for surface care and facility maintenance — not a repurposed consumer
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ Multi-surface versatility reduces product inventory

BEST FOR

- Commercial kitchens
- Healthcare facilities
- Office cleaning
- Hospitality & hotels
- Food processing
- Retail environments

HOW TO USE

For general cleaning, dilute according to the recommended ratio on the product label. Apply to surfaces using a spray bottle, mop, or cloth. Wipe clean or allow to air dry depending on the application. For heavy soiling, use at a stronger concentration or apply neat. Always follow food safety guidelines when using in kitchen environments. Rinse food contact surfaces with clean water after use where required.

Toilet Cleaner & Descaler

Concept image. Product can be customized to your specifications.

"For the daily maintenance of urinals and WCs."

For the daily maintenance of urinals and WCs. A fragrant thickostropic toilet cleanser and descaler

WHY IT WINS

- ✓ Purpose-formulated for chemical concentration and dosing efficiency — not a repurposed
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ Dramatic cost reduction vs. ready-to-use products

BEST FOR

- Facility management companies
- Multi-site operators
- Hotels & hospitality chains
- Healthcare groups
- Contract cleaners
- Cost-conscious operations

HOW TO USE

Use with compatible concentrate dosing systems. Install the concentrate container into the dispenser unit and connect to the appropriate dilution line. The system will automatically dilute to the correct ratio. For manual dilution, measure the concentrate according to the label instructions and add to the appropriate volume of water. Mix thoroughly before use. Always use measuring equipment for consistent results.

Toilet Descaler

Concept image. Product can be customized to your specifications.

"Toilet Descaler is designed for use where the removal of heavy limescale is required."

Toilet Descaler is designed for use where the removal of heavy limescale is required. A high active phosphoric acid based formulation, safe for use on stainless steel, ferrous metals and ceramics. Contains a fresh invigorating fragrance.

WHY IT WINS

- ✓ Purpose-formulated for washroom hygiene — not a repurposed consumer product
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ Concentrated formula — lower cost per application than retail alternatives

BEST FOR

- Commercial washrooms
- Hotels & hospitality
- Healthcare facilities
- Office buildings
- Schools & universities
- Retail locations

HOW TO USE

Apply Toilet Descaler directly to the toilet bowl interior, paying attention to the rim and waterline. Allow the product to work for 3-5 minutes for light soiling, or up to 15 minutes for heavy limescale and staining. Scrub with a toilet brush, then flush. For urinals, apply evenly and allow to work before flushing. Always ensure adequate ventilation during use. Wear appropriate PPE including gloves and eye protection.

Turbo Dishwashing Powder

Concept image. Product can be customized to your specifications.

"Suitable for domestic and commercial dishwashing machines where a separate rinse additive is used."

Suitable for domestic and commercial dishwashing machines where a separate rinse additive is used. Possesses excellent food soiling removal properties. Manual dosing for controlled economy. Suitable for crockery, utensils and glassware.

WHY IT WINS

- ✓ Purpose-formulated for commercial dishwashing and kitchen hygiene — not a repurposed
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ Engineered for automatic dosing systems

BEST FOR

- Commercial kitchens
- Restaurants & cafes
- Hotels & hospitality
- Catering operations
- Healthcare kitchens
- School canteens

HOW TO USE

Use with automatic dosing equipment calibrated to your dishwasher specifications. Ensure the correct product is connected to the appropriate dispenser line (detergent, rinse aid, or destainer as applicable). For manual dosing, follow the concentration guidelines on the product label. Maintain machine temperature and water hardness settings as recommended by the dishwasher manufacturer for optimal results.

Vanilla Air Freshener

Concept image. Product can be customized to your specifications.

"High quality vanilla perfume ensures that it is effective, long lasting and economical."

High quality vanilla perfume ensures that it is effective, long lasting and economical. A quick spray rapidly dispels odours leaving a pleasant long lasting fragrance that enhances any work or leisure environment. Atomizes instantly and completely so does not 'rain' and will not stain fabrics when used in accordance with the directions.

WHY IT WINS

- ✓ Purpose-formulated for environmental fragrance and odor control — not a repurposed consumer
- ✓ Made in America at our Pampa, Texas manufacturing facility
- ✓ Factory-direct pricing eliminates distributor and retail markups
- ✓ True odor neutralization, not just masking

BEST FOR

Office buildings

Hotels & hospitality

Healthcare facilities

Retail stores

Washrooms

Reception areas

HOW TO USE

For trigger spray application, spray 2-3 bursts into the center of the room, directing upward. Avoid spraying directly onto fabrics, polished surfaces, or electrical equipment. For use in automatic dispensing systems, install the refill according to the dispenser manufacturer's instructions. Adjust the interval timer based on room size and foot traffic.

EXPECTED RESULTS

- ✓ Immediate neutralization...
- ✓ Long-lasting, pleasant fragrance...
- ✓ Professional, welcoming atmosphere...
- ✓ Consistent scent coverage...
